Thank you card from happy students at Jacob Hespeler Public School

During the grand opening celebrations held on April 13, 2010 at the Hespeler Elementary School the staff and students presented +VG Architects with a very kind thank you card which was made and signed by the students for the new addition to their school.

The 11,237 FT² addition to the existing elementary school consists of eight new classrooms with two large student common areas and includes upgrades to the existing sprinkler system, barrier free upgrades and interior/exterior improvements.

+VG Architects would like to thank the students and staff of the Hespeler Elementary School for the thank you card, and hope they enjoy their new addition.

+VG Architects would also like to thank the Waterloo Region District School Board for their continued support.
